Join REFA's DEI Committee in exploring the role of real estate investment in the pivotal link between access to capital and wealth creation. We'll delve into the nuts and bolts of creating real estate investment vehicles and share perspectives of a local developer and an institutional investment manager. We'll also discuss the significance of investing in the "Social" aspect of Environmental, Social, and Governance (ESG) criteria, and illuminating strategies for fostering equitable economic outcomes. Moreover, we'll review the importance of forging partnerships to bring investment opportunities to communities of color.
